121/2020/21	<u>Government Consultations</u>	<p>a. Changes to the Planning System: Consultation on changes to the planning system regulations.</p> <p>It was noted that the National Association of Local Councils (NALC) would be presenting a formal representation on behalf of town and parish councils.</p> <p>b. Transparency and Competition – A call for evidence on data and land control.</p> <p>c. White Paper: Planning for the Future</p> <p>Cllr D Spear explained that the district councillors would be receiving a briefing from their planning officers.</p> <p>Items (b) and (c) were considered together. Members expressed concerns regarding the proposed changes to the Section 106 funding. Money would now be allocated centrally which could result in rural areas being at a disadvantage due to less population in comparison to urban areas. It was unclear how the monies would be fairly distributed. Town and parish councils will have less say in development in their local area. Planning fees appear to be disproportionate there should be a scale that meets affordable needs. The proposed new housing requirement methodology will impact negatively on the North Devon area. There were concerns regarding access to digital data many people do not have access to the internet and the broadband in some areas of Braunton is very poor.</p> <p>RESOLVED: That</p> <p>i. Members to make their individual responses to the Changes to the Planning System Consultation due to the closing date being 30th October.</p> <p>ii. Members to send their comments to Cllr D Relph who will produce a draft response to be approved at the October Additional Council meeting. An informal meeting to be held prior to the Additional Council meeting to allow discussion of the comments received.</p>

- iii. District councillors to report back following their briefing and provide further information regarding the local area housing methodology.
- iv. A copy of the approved response to be sent to the local MP.
